## Notes

### HSE School Immunisations Programme for Junior Infants Academic Year 2015/2016

**Target Population in LHO** : All children in Junior Infants on the school register in LHO on 30th September 2015 for the 2015/2016 academic year.

**Number given DTaP/IPV** : Number vaccinated in school + number vaccinated at subsequent HSE mop-up clinics + number vaccinated in previous year by GP or in school (i.e. children who are repeating Junior Infants but were vaccinated in school last year)

**Percent immunised** = (Total number given 4 in 1 in LHO divided by the number of Junior Infants on school register in LHO on 30th September 2015) x 100

**Number given MMR in LHO** : Number vaccinated in school + vaccinated at subsequent HSE mop-up clinics + number previously vaccinated by GP or in school (i.e. children who are repeating Junior Infants but were vaccinated in school last year) or other.

**Percent immunised MMR** = (Total number given MMR in LHO divided by the number of Junior Infants on school register on 30th September 2015) x 100

Figures in HSE administered LHOs based on what was recorded on SIS only on 24th April 2017 although some LHOs had not entered all their data at the time of data extraction. For the latter LHOs the returns reported here are based on data provided by them directly to HPSC by mid October 2016, except for Wexford, whose updated figures were reported on the 17th May 2017.

Figures in this band are based on that which was reported directly to HPSC in May 2017

Figures in these bands are based on that which was reported directly to HPSC in mid October 2016

### GP Administered Programme for Junior Infants 2015/2016

**Target Population in LHO** : All children born between 01/09/2009 and 31/08/2010

**Number given DTaP/IPV or MMR in LHO** : Number vaccinated by GP by end of August 2016

**Percent immunised DTaP/IPV or MMR** = (Total number of target cohort given DTaP/IPV or MMR in LHO divided target cohort for LHO) x 100
