Not Answered:	

**5. Do you have any issues you would like addressed that you feel were not addressed here today? If so please elaborate**

- No not as yet will have to wait for the feedback from the pilot to see the issues that arise.
- Useful introduction to a very useful new data information system
- Resources to implement using CIDR
- No - just when will it be implemented - obviously no-one knows yet.
- Hoping our Board can cope with the technical spec.

**6. Do you have any suggestions on how to improve the demonstrations?**

- The one to one training during hands-on practice was great
- Demonstration was very well done
- Useful and well presented
- No, information made very clear
- Learned a lot
