

No to Norovirus

The Vomiting Bug

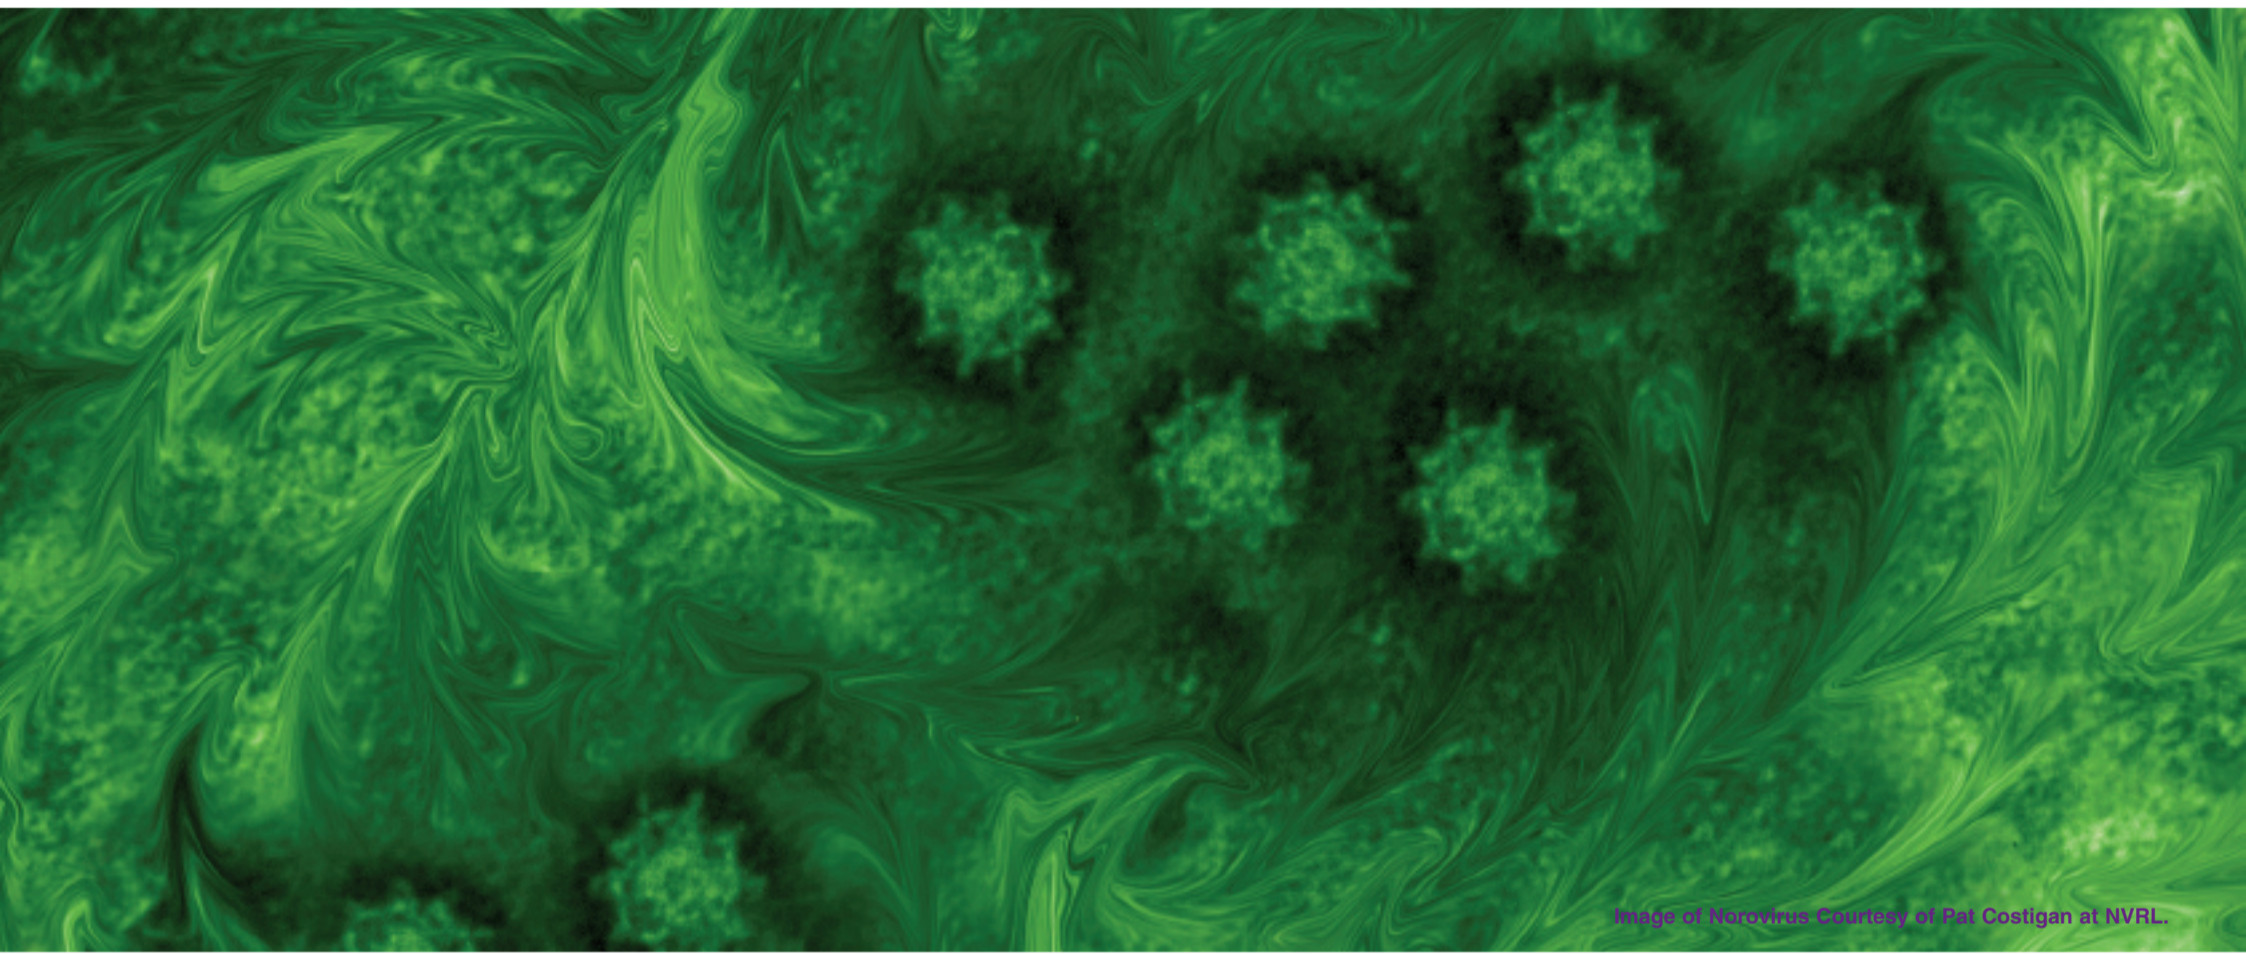

Image of Norovirus Courtesy of Pat Costigan at NVRL.

- Norovirus can close wards and cancel operations
- Keeping it out protects vulnerable patients
- Don't visit relatives in hospitals or nursing homes if you have had vomiting or diarrhoea in the previous two days
- Wash your hands regularly with hot water and soap:
 - After using the toilet
 - After contact with an ill person
 - After handling food
