

**Weekly Evidence Surveillance 20<sup>th</sup> June 2025**

Source	Item	Pub Date	Details
<a href="#">ECDC</a>	<a href="#">Rapid Risk Assessment: Multi-country outbreak of hepatitis A in the EU/EEA</a>	18/06/2025	This rapid risk assessment provides an overview of a multi-country hepatitis A outbreak in the EU/EEA during early 2025, highlighting its impact on vulnerable populations and identifying two closely related virus strains across affected regions.
<a href="#">ECDC</a>	<a href="#">Fourteenth external quality assessment for Salmonella typing in EU/EEA and EU enlargement countries, 2024</a>	16/06/2025	ECDC commissions an annual External Quality Assessment (EQA) scheme for the serotyping and molecular-based cluster analysis of Salmonella to monitor the typing methods used, data quality and comparability, and the capability of laboratories to perform these methods.
<a href="#">ECDC</a>	<a href="#">COVID-19 vaccination coverage in the EU/EEA during the 2024–25 season campaigns</a>	13/06/2025	This report presents a description of COVID-19 vaccine coverage in the European Union/European Economic Area (EU/EEA) between 1 August 2024 and 28 March 2025.
<a href="#">ECDC</a>	<a href="#">Public health advice for EuroPride 2025</a>	13/06/2025	Ahead of EuroPride 2025 (June 14–22) in Lisbon, Portugal, the European Centre for Disease Prevention and Control (ECDC), the World Health Organization Regional Office for Europe (WHO/Europe), and Portugal's Direção-Geral da Saúde (DGS) have together issued health advice for people attending the events.
<a href="#">WHO</a>	<a href="#">Tracking global progress on preparedness for respiratory pandemics: 2023 report</a>	19/06/2025	In alignment with the World Health Organization's (WHO) Framework for tracking global progress on preparedness for respiratory pandemics, this 2023 progress report provides an annual snapshot of the

			status of functional capacities required for effective respiratory pandemic preparedness.
<a href="#">WHO</a>	<a href="#">Consolidated guidance on tuberculosis data generation and use: Module 4: Surveys of costs faced by households affected by tuberculosis</a>	19/06/2025	One of the three high-level targets of the World Health Organization's End TB Strategy (2016–2035) is that no TB-affected households face total costs that are catastrophic. To assess progress towards this target, WHO recommends periodic national surveys of the costs incurred by people treated for TB and their households.
<a href="#">WHO</a>	<a href="#">WHO guidelines for the treatment of patients with cystic echinococcosis: web annex B: evidence-to-decision framework</a>	17/06/2025	As part of developing the guidelines for the treatment of patients with cystic echinococcosis, evidence-to-decision (EtD) frameworks were used to produce the recommendations for each PICO question.
<a href="#">WHO</a>	<a href="#">Mekong Malaria Elimination Programme epidemiology summary, volume 29</a>	13/06/2025	The Mekong Malaria Elimination (MME) programme is an initiative aimed at supporting Greater Mekong Subregion (GMS) countries – Cambodia, Lao People's Democratic Republic, Myanmar, Thailand, Viet Nam and Yunnan (China) – in achieving the goal of malaria elimination by 2030.
<a href="#">WHO</a>	<a href="#">Skin health for all: update on skin neglected tropical diseases with a focus on Buruli ulcer and yaws</a>	13/06/2025	Skin diseases in general are the third most prevalent cause of illness, with almost 5 billion incident cases of skin and subcutaneous diseases, and one of the first 10 causes of disability.
<a href="#">WHO</a>	<a href="#">Respiratory syncytial virus sequencing considerations for an expanded Global Influenza Surveillance and Response System</a>	13/06/2025	This document outlines a number of practical considerations regarding the scale and quality of sequencing. It also outlines the range of next generation sequencing (NGS) technologies suitable for RSV whole genome sequencing (WGS).

<a href="#">CDC</a>	<a href="#">CDC warns of Listeria outbreak linked to recalled chicken fettuccine alfredo meals   CDC Newsroom</a>	18/06/2025	Seventeen people from 13 states have gotten sick with the same strain of Listeria that has been linked to some FreshRealm chicken fettuccine alfredo meals. Sixteen people have been hospitalized and three deaths have been reported. One pregnancy associated illness resulted in a fetal loss. The deaths were reported from Illinois, Michigan, and Texas.
<a href="#">CDC</a>	<a href="#">CDC warns of Salmonella outbreak linked to pistachio cream   CDC Newsroom</a>	16/06/2025	Four people in two states have gotten sick with the same strain of Salmonella that has been linked to pistachio cream. One person has been hospitalized, and no deaths have been reported.
<a href="#">CDC</a>	<a href="#">Clade II Mpox Infections Among Cruise Ship Passengers and Crew Members — United States, 2024   MMWR</a>	19/06/2025	During January 25–April 18, 2024, CDC was notified of eight mpox cases on four cruise ships: four among crew members and four among passengers. All cases occurred among MSM; five of eight patients had not been vaccinated against mpox.
<a href="#">CDC</a>	<a href="#">Clade Ib Mpox Outbreak — Kenya, July 2024–February 2025   MMWR</a>	19/06/2025	Among 48 laboratory-confirmed clade Ib mpox cases diagnosed in Kenya during July 2024–February 2025, a total of 27 (56.3%) occurred among persons who worked as truck drivers, or were in contact with them, along a highway from Mombasa to Malaba, a transportation corridor that links Kenya to other East and Central African countries.
<a href="#">CDC</a>	<a href="#">Use of JYNNEOS (Smallpox and Mpox Vaccine, Live, Nonreplicating) for Persons Aged ≥18 Years at Risk for Mpox During an Mpox Outbreak: Recommendations of the Advisory Committee on Immunization Practices — United States, 2023   MMWR</a>	19/06/2025	In 2023, the Advisory Committee on Immunization Practices (ACIP) recommended JYNNEOS (smallpox and mpox vaccine, live, nonreplicating) for persons aged ≥18 years who are at risk for mpox during any mpox outbreak and who are at risk for mpox during the ongoing clade IIb outbreak.

<a href="#">UKHSA</a>	<a href="#">Mpox: guidance on when to suspect a case of mpox - GOV.UK</a>	19/06/2025	Updated links and added additional guidance for suspected cases of mpox.
<a href="#">UKHSA</a>	<a href="#">Mpox: guidance for people who are isolating at home - GOV.UK</a>	19/06/2025	Guidance for people who have been diagnosed with mpox or who are waiting for an mpox test result and have been advised to self-isolate at home
<a href="#">UKHSA</a>	<a href="#">Polio: global eradication, NAC and environmental surveillance - GOV.UK</a>	19/06/2025	Addition of new member.
<a href="#">UKHSA</a>	<a href="#">Argentine haemorrhagic fever - GOV.UK</a>	19/06/2025	The epidemiological and clinical characteristics of Argentine haemorrhagic fever.
<a href="#">UKHSA</a>	<a href="#">Mpox: affected countries - GOV.UK</a>	18/06/2025	Updated affected countries data. Added Ethiopia
<a href="#">UKHSA</a>	<a href="#">Rabies case confirmed following contact with animal abroad - GOV.UK</a>	18/06/2025	An individual from the UK has sadly died after becoming infected with rabies, following contact with a stray dog during a visit to Morocco. The individual was diagnosed in Yorkshire and the Humber.
<a href="#">UKHSA</a>	<a href="#">Rabies: epidemiology, transmission and prevention - GOV.UK</a>	18/06/2025	Rebranded page to UKHSA. No change to content.
<a href="#">UKHSA</a>	<a href="#">Public health in prisons and secure settings - GOV.UK</a>	16/06/2025	Added 'Mpox: prisons and places of detention' under 'Infection control in prisons and secure settings' heading. Removed the heading 'Alcohol and drug treatment in prisons and secure settings' as this guidance sits with OHID.
<a href="#">UKHSA</a>	<a href="#">Changes to the childhood vaccination programme: why are they happening - GOV.UK</a>	16/06/2025	From 1 July 2025 there will be changes to the routine schedule of vaccinations offered to children. This flyer explains these changes and why they have been made.
<a href="#">UKHSA</a>	<a href="#">Rotavirus vaccine (Rotarix®): patient group direction (PGD) template - GOV.UK</a>	16/06/2025	Added version 7, see page 4 for change history.
<a href="#">UKHSA</a>	<a href="#">Hepatitis B: antenatal screening and selective neonatal immunisation pathway - GOV.UK</a>	13/06/2025	Updated to include changes to the childhood immunisation schedule for children who turn 12 months old on or after 1 July 2025. Specified that the

			guidance applies to England and is provided jointly by UKHSA and NHS England.
<a href="#">UKHSA</a>	<a href="#">Pneumococcal: the green book, chapter 25 - GOV.UK</a>	13/06/2025	Updated to reflect changes to the childhood immunisation programme from 1 July 2025.
<a href="#">UKHSA</a>	<a href="#">Introduction of new routine mpox and 4CMenB for gonorrhoea vaccination programmes letter - GOV.UK</a>	13/06/2025	Information about the new routine mpox and 4CMenB for gonorrhoea vaccination programmes.
<a href="#">NICE</a>	<a href="#">Overview   Topical antimicrobial dressings for locally infected leg ulcers: late-stage assessment   Guidance   NICE</a>	19/06/2025	Late stage assessment (LSA) guidance on topical antimicrobial dressings for locally infected leg ulcers.
<a href="#">ESRI</a>	<a href="#">Research on the environment, health, consumer behaviour and the economy: ESRI Environment Research Programme 2022-2024   ESRI</a>	19/06/2025	Continuing the collaboration established between the Economic and Social Research Institute (ESRI) and Environmental Protection Agency (EPA) in phases I (2016-2018), II (2018-2020) and III (2020-2022) of the research programme on environment economics, this report summarises the findings from phase IV of the programme (2022-2024). A diverse set of research topics was examined, broadly grouped under four thematic areas.
<a href="#">ESRI</a>	<a href="#">Projections of national demand and workforce requirements for general practice in Ireland, 2023–2040: Based on the Hippocrates model   ESRI</a>	18/06/2025	As part of the Department of Health/Economic and Social Research Institute (ESRI) Research Programme in Healthcare Reform, the ESRI used the Hippocrates model to provide up-to-date projections for three services areas – public acute hospitals, general practice and older peoples’ services.
<a href="#">ESRI</a>	<a href="#">Production- and Consumption-Based emissions: An international comparison   ESRI</a>	16/06/2025	Production-based accounting (PBA) and consumption-based accounting (CBA) of emissions differ in how they consider the emissions resulting from the production of internationally traded commodities. This paper applies

			both approaches to calculate and compare emissions for Ireland and selected countries.
<a href="#">HIQA</a>	<a href="#">Magnetic resonance-guided radiotherapy (MRgRT) evidence synthesis to support a generic justification decision   HIQA</a>	16/06/2025	Evidence synthesis to support a generic justification decision
<a href="#">HIQA</a>	<a href="#">HIQA launches public consultation on the draft National Standard for a Demographic Dataset for Health and Social Care   HIQA</a>	13/06/2025	HIQA has today launched a public consultation inviting feedback on the draft National Standard for a Demographic Dataset for Health and Social Care.
<a href="#">HIQA</a>	<a href="#">Opening Statement to Oireachtas Health Committee   HIQA</a>	18/06/2025	Chief Executive, Angela Fitzgerald, delivered this opening statement to the Oireachtas Committee on Health on 18 June 2025.
<a href="#">PHS</a>	<a href="#">Protect your baby against respiratory syncytial virus (RSV) - Publications - Public Health Scotland</a>	17/06/2025	This guide provides information on the respiratory syncytial virus (RSV) vaccine which is offered during pregnancy to help protect babies against serious illness caused by RSV infection.
<a href="#">PHS</a>	<a href="#">Projecting future demand for health and care services in Scotland (2024-2034) - Long term service demand projections in Scotland - Publications - Public Health Scotland</a>	17/06/2025	This release by Public Health Scotland (PHS) presents analyses carried out within the Population Health Monitoring programme to project unplanned acute inpatient hospital demand, based on historical trends and population projections over the next decade.
<a href="#">PHS</a>	<a href="#">Sexual health and blood borne virus action plan: 2023 to 2026, data monitoring plan - Publications - Public Health Scotland</a>	17/06/2025	The Data Monitoring Plan (DMP) outlines the key outcomes and indicators the Scottish Government Sexual Health and Blood-Borne Virus Action Plan (2023-2026) will be assessed against for HCV, HIV, sexually transmitted infections (STIs) and reproductive health.
<a href="#">PHS</a>	<a href="#">Surveillance of hepatitis B in Scotland 17 June 2025 - Surveillance of hepatitis B in Scotland - Publications - Public Health Scotland</a>	17/06/2025	This release by Public Health Scotland (PHS) provides an update on hepatitis B virus (HBV) surveillance activities across Scotland over a ten-year period from 2014 to 2023 and also presents evidence on progress towards the World Health Organization (WHO)

			elimination targets for hepatitis B where data are available.
<a href="#">IDSA</a>	<a href="#">AMA adopts IDSA-led call to protect evidence-based medicine, public health and research</a>	13/06/2025	An IDSA resolution calling for the American Medical Association to “assertively and publicly” advocate for federal and state policies that safeguard public health infrastructure, advance biomedical research and improve vaccine confidence was approved June 10.
<a href="#">IDSA</a>	<a href="#">Steep cuts in president’s FY 2026 budget will make America less healthy and safe</a>	13/06/2025	The harmful cuts to biomedical research and public health outlined in the president’s budget request will lead to a less healthy and safe America. Because the proposed cuts are so steep, they will damage infrastructure and limit the effectiveness of vital ID activities for which funding is maintained, such as emerging ID surveillance.
<a href="#">EEA</a>	<a href="#">Consolidated annual activity report (CAAR) 2024   European Environment Agency's home page</a>	13/06/2025	The report provides an overview of the EEA’s key activities and achievements during the year, as we work to provide timely environmental data, knowledge, assessments and reporting to inform policy makers, the general public and other stakeholders.
<a href="#">IAEA</a>	<a href="#">How Nuclear and Isotopic Techniques Help Countries Combat Soil Salinization   IAEA</a>	20/06/2025	The IAEA is working with the private sector company Anglo American Crop Nutrients on a new research project using mineral fertilizers to manage and restore salt-affected soils
<a href="#">IAEA</a>	<a href="#">Update on Developments in Iran   IAEA</a>	19/06/2025	Since the military attacks began almost a week ago, the IAEA has been reporting on damage at several of these facilities, including at nuclear-related sites located in Arak, Esfahan, Natanz and Tehran, and their potential radiological impact.

<a href="#">IAEA</a>	<a href="#">Nuclear Techniques Make Waves at UN Ocean Conference   IAEA</a>	17/06/2025	The IAEA highlighted the role of nuclear science in protecting our oceans at the 2025 United Nations Ocean Conference held last week in Nice, France.
<a href="#">IAEA</a>	<a href="#">Led by IAEA, International Team Samples Treated Water under Additional Measures at Fukushima Daiichi Nuclear Power Station   IAEA</a>	17/06/2025	The International Atomic Energy Agency (IAEA) led a team of international experts to collect samples today of ALPS treated water stored at Japan's Fukushima Daiichi Nuclear Power Station (FDNPS) prior to the water's dilution with seawater and its discharge to the sea.
<a href="#">IAEA</a>	<a href="#">Scientific Collaboration with Medical Physics Federation   IAEA</a>	16/06/2025	The IAEA and the European Federation of Organisations for Medical Physics are strengthening cooperation on activities that promote the safe and effective use of ionizing radiation in medicine for diagnosis and treatment.
<a href="#">IAEA</a>	<a href="#">IAEA Director General's Statement on the Situation in Iran</a>	16/06/2025	IAEA Director General Rafael Mariano Grossi delivered a statement to the IAEA Board of Governors on the situation in the Islamic Republic of Iran on 16 June 2025.
<a href="#">IAEA</a>	<a href="#">IAEA and MedAccess Launch Partnership to Expand Access to Cancer Care   IAEA</a>	16/06/2025	The IAEA and UK social enterprise MedAccess have launched a new partnership under the Rays of Hope: Cancer Care for All initiative.
<a href="#">IAEA</a>	<a href="#">Director General Grossi's Statement to UNSC on Situation in Iran   IAEA</a>	13/06/2025	Early this morning, the International Atomic Energy Agency (IAEA) was informed of the military operation launched by Israel which includes attacks on nuclear facilities in the Islamic Republic of Iran.
<a href="#">IAEA</a>	<a href="#">IAEA Holds First Training Course on Nuclear Law in China   IAEA</a>	13/06/2025	The People's Republic of China is in the legislative approval process of the draft Atomic Energy Law which recently passed the second review of the National People's Congress (NPC) in April 2025.
