COVID-19 Safe PPE

Care of patients with respiratory symptoms/suspected/confirmed COVID-19

Hand Hygiene First in All Cases

Low Contact
- Increased risk for transfer of virus and other pathogens to the hands and clothing.
- Unlikely to provide opportunities for the transfer of virus/other pathogens to the hands and clothing.
- Gloves
- Disposable Plastic Apron
- Surgical facemask
- Eye protection

High Contact
- Increased risk for transfer of virus and other pathogens to the hands and clothing.
- Gloves
- Long Sleeved Disposable Gown
- Surgical facemask
- Eye protection

Aerosol Generating Procedures
- Also if there is a risk of an unplanned aerosol generating procedure.
- Gloves
- Long Sleeved Disposable Gown
- FFP2 respirator mask
- Eye protection

*Eye protection to be worn on risk assessment
