

Cosain do naíonán nuabheirthe ar an Víreas Sincítiach Riospráide (RSV)

Protect your new born baby against Respiratory Syncytial Virus (RSV)

Is féidir le RSV a bheith ina chúis le breoiteacht thromchúiseach i naíonáin

Tá an t-imdhíonadh ar RSV idir shlán
sábháilte agus éifeachtach, agus molann
an Roinn Slainte, Feidhmeannacht
na Seirbhíse Slainte (HSE) agus an
Coiste Comhairleach Náisiúnta um
Imdhíonadh é le do naíonán a chosaint
ar bhreoiteacht thromchúiseach.

RSV can cause serious illness in babies

RSV immunisation is safe and
effective and is recommended by
the Department of Health, HSE and
the National Immunisation Advisory
Committee (NIAC) to protect your
baby against serious illness.

Labhair le do dhochtúir nó do chnáimhseach
faoi do naíonán a chosaint ar RSV

Talk to your doctor or midwife about
protecting your baby against RSV
