

MSM Internet Survey Ireland 2015

(MISI 2015 (Final))

[Welcome to the Ireland's survey of men who are attracted to men.]

Welcome to Ireland's survey of men who are attracted to men.

Please take part if you

- are a man, or a transman
- AND you live in Ireland
- AND are aged 18 years or over
- AND are attracted to other men OR have sex with men OR think you might have sex with men in the future

What's it about? It asks about relationships, sex life, risks and precautions and use of health services. It typically takes around 15 minutes to complete.

Is my information confidential? Yes, the survey is anonymous; we will not collect any information that would allow anybody to identify you. We will not collect the internet protocol (IP) address of your device or try to install any cookies. The survey received ethical approval from the Royal College of Physicians of Ireland (RCPI). The results of the survey will be published in 2016 and will be available at the GMHS and Gay Health Network websites, where previous reports are available.

About us? The survey is carried out by a team of researchers and health service planners from Gay Health Network and the HSE (Gay Men's Health Service, Health Protection Surveillance Centre and Crisis Pregnancy Programme). We work with health agencies and groups to promote sexual health and HIV prevention among MSM. The survey is funded by the HSE.

You can get more information about this survey at misi.ie or directly from Mr Mick Quinlan at the Gay Men's Health Service (GMHS) by phone (01-6699553) or email (misi@ghn.ie).

Please complete this survey ONCE ONLY between March 1st and May 31st

Please tick both of the boxes below to say that you have read and understood what the questionnaire is about and you wish to take part.

Do you and this steady **female partner** have the same HIV status?

QUESTION SHOWN WHEN ANSWER TO QUESTION ARE YOU CURRENTLY IN A STEADY RELATIONSHIP? PLEASE TICK ALL THAT APPLY IS ANY OF YES, WITH A WOMAN, YES, WITH MORE THAN ONE WOMAN

[Please select an answer]

Yes, we have the same HIV status (either both positive or both negative).

No, one of us is positive and the other is negative.

Don't know whether we have the same status or not.

Did you know this about HIV, Testing and Treatment

The following seven statements are all TRUE. **Did you know this already?**

AIDS is caused by a virus called HIV.

You cannot be confident about whether someone has HIV or not from their appearance.

There is a medical test that can show whether or not you have HIV.

If someone becomes infected with HIV it may take several weeks before it can be detected in a test.

There is currently no cure for HIV infection.

HIV infection can be controlled with medicines so that its impact on health is much less.

[Please select an answer]

I knew this already

I wasn't sure about this

I didn't know this already

I don't understand this

I do not believe this

Effective treatment of HIV infection reduces the risk of HIV being transmitted.

About taking an HIV test

Have you ever received an HIV test result?

[Please select an answer]

No, I've never received an HIV test result

Yes, I've tested positive (I have HIV infection)

Yes, my last test was negative (I did not have HIV infection at the time of the test)

Have you ever tested for HIV at GMHS (Gay Men's Health Service) clinic in Baggot Street Hospital, Dublin 4.

[Please select an answer]

Yes

No

What do you think your current HIV status is?

[Please select an answer]

Definitely negative (I don't have HIV)

Probably negative

Not sure / I don't know

Probably positive

Definitely positive (I do have HIV)

About being diagnosed with HIV

Do you and this steady **male partner** have the same HIV status?

QUESTION SHOWN WHEN ANSWER TO QUESTION HOW MANY STEADY MALE PARTNERS HAVE YOU HAD ANAL INTERCOURSE WITH, WITHOUT A CONDOM WITH IN THE LAST 12 MONTHS? IS ANY OF 1

[Please select an answer]

- Yes, we have the same HIV status (either both positive or both negative).
- No, one of us is positive and the other is negative.
- Don't know whether we have the same status or not.

About sex with non-steady male/trans-male partners

PAGE SHOWN WHEN ANSWER TO QUESTION WHEN DID YOU LAST HAVE ANY KIND OF SEX WITH A MAN (PLEASE INCLUDE ANY SEXUAL CONTACT, NOT JUST ANAL INTERCOURSE)? IS ANY OF WITHIN THE LAST 24 HOURS, WITHIN THE LAST 7 DAYS, WITHIN THE LAST 4 WEEKS, WITHIN THE LAST 6 MONTHS, WITHIN THE LAST 12 MONTHS

In this survey we use the term '**non-steady male partners**' to mean men you have had sex with once only, and men you have sex with more than once, but who you don't think of as a steady partner (this includes one night stands, anonymous and casual partners, and regular sex buddies).

In this survey, we use "sex" to mean physical contact to orgasm (or close to orgasm) for one or both partners.

In the last 12 months, have you had **any kind** of sex with a **non-steady male** partner (please include any sexual contact, not just intercourse)?

[Please select an answer]

No
Yes

How many different **non-steady male partners** have you had **sex** with in the last 12 months?

About using various substances

Please say when you last did something, even if this was not typical for you.

When was the last time you consumed Poppers?

[Please select an answer]

Never
Within the last 24 hours
Within the last 7 days
Within the last 4 weeks
Within the last 6 months
Within the last 12 months
Within the last 5 years
More than 5 years ago

In the last 12 months, have you used any of the following drugs?

Please tick all that apply

- Amphetamine (speed)
- Cannabis (Hashish, marijuana)
- Cocaine
- Crack cocaine
- Crystal methamphetamine (crystal, meth, tina)
- Ecstasy (E, XTC, MDMA)

- Heroin or related drugs (poppy straw, kompot, fentanyl)
- Mephedrone (4-MMC, meow, methylone, bubbles)
- GHB/GBL (liquid ecstasy)
- Ketamine (K, special K)
- LSD (acid)
- Other drug

Have you **EVER** injected any drug other than anabolic steroids or medicines or had someone inject you with them?

[Please select an answer]

- No
- Yes

Did you know this about HIV and STIs

The following six statements are all TRUE. **Did you know this already?**

HIV **cannot** be passed during kissing, including deep kissing, because saliva does not transmit HIV.

People **can** pick up HIV through their penis while being 'active' in unprotected intercourse (fucking) with an infected partner, even if they don't ejaculate.

People **can** pick up HIV through their rectum while being 'passive' in unprotected intercourse (being fucked) with an infected partner.

[Please select an answer]

- I knew this already
- I was not sure about this
- I did not know this already
- I do not understand this
- I do not believe this

Even without ejaculation, **oral sex** (sucking and being sucked) carries a risk of infection with syphilis or gonorrhoea.

When HIV infected and uninfected people have sex together, the chances of HIV being passed on are greater if either partner has another sexually transmitted infection.

Most sexually transmitted infections can be passed on more easily than HIV.

Your approach to your sexual health

Which of the following would you say are part of your approach to reducing the potential for getting or transmitting an STI?

Please tick as many as apply to you

ANSWER ROTATION

- I make sure I know my current HIV status
- I make sure I know my current viral load
- I regularly test for other STIs
- If I have an infection, I avoid sex until it is cured or managed
- I use PrEP (Pre-Exposure HIV Prophylaxis)
- I'd use PEP (Post-Exposure Prophylaxis) if I thought I'd been exposed to HIV
- I sometimes decline sex partners
- I talk about HIV and/or STIs with potential sex partners
- I date potential sex partners until we get to know each other better
- I try to avoid sex with people who have HIV
- I try to avoid sex with people who do not have HIV
- I use condoms for giving oral sex (sucking cock)
- I avoid 'active' intercourse (doing the fucking) altogether
- I wear condoms when I'm 'active' in intercourse (doing the fucking)
- I avoid 'passive' intercourse (getting fucked) altogether
- My partners wear condoms when I'm 'passive' in intercourse (getting fucked)
- I use lubricant for intercourse
- I avoid using poppers when having 'passive' intercourse (getting fucked)
- I use gloves for fisting
- Any other tactic/s

Please describe any other tactics

TACTIC/S

[Type your answer here]

About post-exposure prophylaxis (PEP)

The following three statements are all TRUE. **Did you know this already?**

Post-exposure prophylaxis (PEP) attempts to stop HIV infection taking place after a person is exposed to the virus.

PEP is a one month course of anti-HIV drugs

PEP should be started as soon as possible after exposure, preferably within hours

[Please select an answer]

- I knew this already
- I wasn't sure about this
- I didn't know this already
- I don't understand this
- I do not believe this

Have you ever been treated with PEP?

QUESTION SHOWN WHEN ANSWER TO QUESTION HAVE YOU EVER RECEIVED AN HIV TEST RESULT? IS ANY OF NO, I'VE NEVER RECEIVED AN HIV TEST RESULT, YES, MY LAST TEST WAS NEGATIVE (I DID NOT HAVE HIV INFECTION AT THE TIME OF THE TEST)

[Please select an answer]

- No
- Yes
- I don't know

Before you were diagnosed with HIV, had you ever been treated with PEP?

QUESTION SHOWN WHEN ANSWER TO QUESTION HAVE YOU EVER RECEIVED AN HIV TEST RESULT? IS ANY OF YES, I'VE TESTED POSITIVE (I HAVE HIV INFECTION)

[Please select an answer]

- No
- Yes
- I don't know

How confident are you that you could get PEP if you thought you needed it?

[Please select an answer]

- Very confident
- Quite confident
