HSE - Vaccine administered by HSE in these areas

Target population/Cohort in GP vaccine administered areas: all children born between 01/09/2006 and 31/08/2007

N/A - Data Not Available

HSE School Immunisations Programme for Junior Infants Academic Year 2012/2013

Number given 4 in 1 = number vaccinated in school + number vaccinated at subsequent HSE mop-up clinics + number vaccinated in previous year by GP or in school (i.e. children who are repeating Junior Infants but were vaccinated in school last year)

Percent immunised with 4 in 1 = (Total number given 4 in 1 in LHO divided by the number of Junior Infants on school register in LHO on 30th September 2012) x 100

Number given MMR in LHO = number vaccinated in school + vaccinated at subsequent HSE mop-up clinics + number previously vaccinated by GP or in school (i.e. children who are repeating Junior Infants but were vaccinated in school last year) or other.

Percent immunised with MMR = (Total number given MMR in LHO divided by the number of Junior Infants on school register on 30th September 2012) x 100

GP Administered Programme for Junior Infants 2012-2013

Number given 4 in 1 in LHO = number vaccinated by GP by end of August 2013

Percent immunised with 4 in 1 = (Total number of target cohort given 4 in 1 in LHO divided target cohort for LHO) x 100
