## Guidance notes:

1. An outbreak of infection or foodborne illness may be defined as two or more linked cases of the same illness, or the situation where the observed number of cases exceeds the expected number, or a single case of disease caused by a significant pathogen (e.g. diphtheria or viral haemorrhagic fever). Outbreaks may be confined to some of the members of one family or may be more widespread and involve cases either locally, nationally or internationally.
2. Data for this report were extracted from Computerised Infectious Disease Reporting (CIDR) on 02 July 2025, and were correct at the time that data were extracted. Information from previous weeks is updated on an ongoing basis in CIDR, therefore data in this report may be updated in future reports.
3. Data are collated and analysed using the CIDR system. Data are provisional in this report and are subject to change until final validation at the end of an outbreak.
4. The counties covered by each HSE area are as follows:
  - HSE East (E): Dublin, Kildare & Wicklow;
  - HSE Midlands (M): Laois, Longford, Offaly & Westmeath;
  - HSE Midwest (MW): Clare, Limerick & N. Tipperary;
  - HSE Northeast (NE): Cavan, Louth, Meath & Monaghan;
  - HSE Northwest (NW): Donegal, Leitrim & Sligo;
  - HSE South (S): Kerry & Cork;
  - HSE Southeast (SE): Carlow, Kilkenny, S. Tipperary, Waterford & Wexford;
  - HSE West (W): Galway, Mayo & Roscommon.
5. The following abbreviations are used when describing mode of transmission:
  - P-P : Person-to-Person transmission;
  - FB : Foodborne transmission;
  - WB : Waterborne transmission.
6. Total number ill does not include asymptomatic cases
7. COVID-19 outbreaks are not included here but published at:
